

The Value of Time: FRx® Helps You Close Your Books Faster

Eddie Pitts
Corporate Controller,
Orange Lake
Country Club

Orange Lake Country Club is one of the nation's largest privately owned timeshare resorts.

*"We work on a 5-day closing schedule for all 17 companies and it was taking us a full day to print the reports. Since we installed FRx, we are able to **print monthly reports in one-third the amount of time** it used to take us, giving management timely information to make solid decisions."*

Ray Peurifoy
Staff Accountant,
Maverick USA

Maverick USA is a rapidly expanding flatbed trucking company.

*"We have been able to **shave a minimum of three days per month off our closing cycle**. I am very pleased with FRx. It has done everything we need it to do and saved us a lot of time."*

Brian Bentz
Manager of Finance
Administration,
Barrie Public
Utilities Company

Barrie Public Utilities Company distributes water and electricity to Ontario, Canada residents.

*"With FRx we no longer have to extract information from several databases and then re-key it into spreadsheets in order to generate a report. **Reports that used to take 75 hours, we can now generate in less than five.**"*

Amin Jivanni
Manager of
Financial Systems,
C&W Health Centre
of British Columbia

C&W Health Centre enhances and promotes the health of children, women, newborns, and families across the province of British Columbia.

*"Our online reports include Board financial statements and VP portfolio reports which cover financial information and staffing. We are also producing reports that examine key indicators such as statistics and workload. For Finance, **using FRx means we'll cut our month end close by seven days.**"*

Scott Cross
Vice President of Finance
and Administration,
Red Herring
Communications

Red Herring Communications is a leading publisher covering the business of technology and a deliverer of technology information worldwide.

"We've been able to reduce a lot of duplication of effort and improve productivity. If we didn't have FRx, we would have to pull data out of our general ledger and put it into Excel™ and maintain that. We've also been able to improve the accuracy of the reports. FRx is driven by logic, so I have a much higher confidence level in the accuracy of the data than I would have with an Excel report."

*"As a result of using FRx, I think **we are more productive in both efficiency and effectiveness**. I would strongly recommend it to any company whose financial reporting needs are similar to ours."*

Pat Capeci
Assistant
Controller of
Accounting,
RAD Energy

RAD Energy is a distributor of home heating oil, gasoline, and other petroleum products in the New York metropolitan area.

*"The monthly reports **used to take three days** to prepare with the consolidations and eliminations. **Now, it's done in one day**—and that includes income statements and other reports for managers. I definitely work faster and more efficiently using FRx."*

Testimonials

Norm Geuder,
Controller
North America,
Insituform
Technologies, Inc.

Insituform Technologies, Inc. is a leading provider of proprietary technologies and services for rehabilitating municipal sewers, water mains, and industrial piping systems.

"FRx enables us to distribute critical financial and production related information to operational and field management at least two days sooner than we were previously able to do."

Gary Hall
Controller,
Haggen, Inc.

Haggen, Inc. is a private retail grocery chain.

"FRx delivered exactly what they said they would. By quickly creating a clear financial picture, FRx helps us make sense of daily chaos, and we know where we are and how we can better serve our customers."

"In the retail business, we are fond of saying that "retail is detail," meaning there is a tremendous amount of in-depth information we have to look at. In addition, our statements are not terribly complex, but with slim grocery industry margins, it is important to have accurate, timely information. We have to create our financial reports quickly to be able to see where we are and respond to and satisfy our customers' needs. FRx enables us to do that."

"It was five business days from the start of training to when I had a set of consolidated financials for the last period of 1998 on my desk. It previously took seven hours to build the five-page consolidated financial report. With FRx, it now takes only 26 minutes. That's a tremendous time savings."
